#### GENERAL INFORMATION

|              |                             |
|--------------|-----------------------------|
| Product Code | ANS-WHT-53151               |
| Brand        | Artize                      |
| Colour       | White                       |
| Type         | Floor Mounted Bidet         |
| Material     | Ceramic-Vitreous China (VC) |

#### PRODUCT SPECIFICATION

|                                    |                                                                                                                        |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Product Dimension                  | 355x560x420 mm                                                                                                         |
| Bowl Inner Dimension               | 270x355x175 mm                                                                                                         |
| Product Net Weight                 | 18 kg                                                                                                                  |
| Product Gross Weight               | 19.5 kg                                                                                                                |
| Packaging Dimension                | 390x450x565 mm                                                                                                         |
| Outlet                             | Vertical                                                                                                               |
| Tap Hole And Outlet Hole Dimension | Tap hole dia. $\varnothing 35 \pm 2$ mm                                                                                |
|                                    | Internal diameter of outlet hole dia. $\varnothing 45 +2/-1$ mm                                                        |
|                                    | Horizontal distance between the centre line of the tap hole and the centre line of the waste outlet hole $\leq 165$ mm |

#### PRODUCT FEATURES

|                  |                                                                                      |
|------------------|--------------------------------------------------------------------------------------|
| Product Features | Straight line design with soft edges<br>Tap Hole, Anti germ glaze<br>Over flow hole. |
|------------------|--------------------------------------------------------------------------------------|

#### ACCESSORIES INCLUDED

|                     |              |
|---------------------|--------------|
| Overflow hole cap   | ZPS-WHT-9014 |
| Floor Fixing Screws | ZPS-SNS-FB02 |

#### CARE AND CLEANING GUIDELINES

|                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| → Vitreous china sanitary ware products are fragile in nature and need to be handled with care (to avoid personal injury) at all times during its storage, handling, installation and use thereafter. |
| → The product is heavy and it is recommended that two persons hold it while it is being fixed.                                                                                                        |
| → Carefully inspect the new product for damage before installation. Recommended to inspect the sanitaryware with wooden Hammer.                                                                       |
| → Risk of product damage. Over tightening may cause breakage or chipping of vitreous china. Recommended to use hard rubber & nylon spacer in between ceramic & metal fixtures.                        |
| → Risk of external leakage. Do not lift or rock the bowl after placement.                                                                                                                             |
| → Always test your cleaning solution on an inconspicuous area on the product before applying it to the entire surface.                                                                                |
| → Do not allow cleaners to sit or soak on the product.                                                                                                                                                |
| → Use a soft, dampened sponge or cloth to clean. Never use abrasive material like a bristle brush or scouring pad.                                                                                    |
| → Wipe surfaces clean and rinse completely with water immediately after applying cleaners.                                                                                                            |
| → Clean Chrome, stainless steel surfaces once a week. Do not use cleaners containing chloride on chrome, stainless steel. If used, rinse the surface immediately to prevent corrosion.                |
| → Wherever chrome plating is used on the products, use only warm water to clean and then dry with a soft cloth.                                                                                       |
| → Recommended to use Genuine Accessories.                                                                                                                                                             |
